# Laptop Locker 2

**Part # LTL-2**
**$135**

**Quantity Discounts**

## Same great features as the original, plus a few bonuses

- Secure in any environment; schools, offices, hotels, and more.
- 2 Different hinge positions allow the door to open only part of the way, like the original Laptop Locker, or at a 90 degree angle to become a temporary work station for the laptop stored inside.
- Large enough to store a MacBook Pro, or any other 17”screen
- Comes standard with keyed lock (other locking options available upon request with longer lead time).

## More great features...

- Designed to meet ADA requirements by being 3.5” deep
- Padded interior provides protection for laptop
- 100% of all painted steel components are powder coated for a durable, environmentally sound finish
- The Laptop Locker 2 is great for education applications (for instructors), corporate environments as well as for commercial vehicles (to store and secure hand held devices, scanners or laptops).
- Should be wall mounted, not recommended to mount under a desk due to the locks location in the front of the unit
- Comes Standard in Black (other colors are available upon request with longer lead time)
- Interior Dimensions: 17.75”W x 3.375”D x 11.625”H
- Provides ability of being charged while being secured and stored
- See Chart below for Exterior Dimensions

| Item# | W | D | H | Weight |
|---|---|---|---|---|
| LTL-2 | 18” | 3.5” | 14-9/16” | 12 |
