

It is critical that you measure your monitor screen correctly to ensure proper fit of your computer filter.

Be sure to measure only the viewable screen area.

Order the Correct 3M™ Privacy Filter

Choose from widescreen or standard size to assure the correct fit for your notebook or LCD monitor.

For frameless filters, the size must be exactly what you measure. For framed filters, choose the size that is nearest to your actual screen measurement or slightly larger.

3M™ Notebook/LCD Privacy Filters	Filter Viewing Area Height x Width	Filter Viewing Area Diagonal	Fits Monitor Size
PF12.1	7 3/8" x 9 3/4"	12 1/16"	12.1"
