

It is critical that you measure your monitor screen correctly to ensure proper fit of your computer filter. **Be sure to measure only the viewable screen area.**

Order the Correct 3M™ Privacy Filter

Choose from widescreen or standard size to assure the correct fit for your notebook or LCD monitor.

For frameless filters, the size must be exactly what you measure. For framed filters, choose the size that is nearest to your actual screen measurement or slightly larger.

Frameless Privacy Filters for Netbooks/Laptops	Viewable Area Height x Width	Viewable Diagonal	Fits Monitor Size	Aspect Ratio
PF8.9W	4 7/16" x 7 5/8"	8 7/8"	8.9" widescreen	16:9
