Computer Security Products, Inc.

Physical Security and Compliance Solutions for IT Equipment

Introduction

Computer Security Products, Inc. is a NH small business with more than 20 years' experience in physically securing IT equipment from theft. In addition to security solutions, we also offer physical privacy compliant solutions.

Core Competencies

- Computer/Laptop lock manufacturer and distributor
- Provider of various types of computer theft deterrents and privacy compliance products, including:
  - Computer Locks
  - Full Steel Server Enclosures
  - Projector Alarms
  - File Cabinet Locking Bars
  - iPad/Tablet Locks
  - Refrigerator Locks
  - Privacy Filters
  - PrivateVue monitors, brand name monitors with built-in privacy filters

Differentiators

- We build our computer/laptop locks in-house, we can key these locks in any manner the client needs.
  - Keyed alike, keyed-different, or master keyed locks.
  - Reserved key codes for those that require it, assuring no other customers will receive that key code.
- Many of our products are **BUILT IN THE USA!**
- We keep your key codes on file, assuring that the key code on your next purchase will match your previous orders.
- In our PrivateVue line, we integrate privacy filters into brand name monitors so employees cannot remove them, helping you comply with privacy regulations. We can provide the monitors or our customers have the option of providing their own monitors to us for integration.
- We are a family business that truly believes in customer service and business values of integrity, friendliness, and helpfulness. Our primary goal is working with our customers to provide them with the security solutions THEY need.
